

About Me...

I have always had a special place in my heart for helping others when they are in need. I started my career working in foster care and helping provide permanency to children and help to parents who were struggling. My journey has led me to now serving as a Veterans Service Officer for the LaSalle County VAC, and I could not be more excited. I have multiple family members who have served, both past and present. Including my late father, who served in the Marines. I am excited to get to know more about the military and get to know and serve all of our veterans. I am an animal mom to 4 cats and 2 dogs. I love to go on hikes with the dogs, and travel when I can. My favorite place to visit is Colorado, and I hope to be able to take my dogs out there one day to adventure with them.
